John Schaefer, President and Chief Executive Officer, stated: "We are pleased with our second quarter results which came in better than our expectations, highlighted by increased net sales, positive same store sales and gross margin expansion, despite a still promotional industry and the continued impact from competition."

Mr. Schaefer added: "As we enter the fall hunting season, we remain encouraged by the improving industry trends and indicators that suggest that we are near normalized industry dynamics in the firearm and ammunition categories. We are excited about our refined small store format that allows us to profitably service even smaller MSA's, and we remain focused on our key priorities. These include continued store growth given the significant white space opportunity, expansion of our loyalty program, enhancement of operating margins and maintaining best in class customer service. We believe we are well positioned for the second half of the year and as a result, we are reiterating our full year 2015 guidance."

Non-GAAP Information

This press release includes the following financial measures defined as non-GAAP financial measures by the Securities and Exchange Commission (the "SEC"): adjusted income from operations, adjusted net income, adjusted diluted weighted average shares outstanding, adjusted diluted earnings per share and adjusted EBITDA. The Company has reconciled these non-GAAP financial measures with the most directly comparable GAAP financial measures under "GAAP and Non-GAAP Measures" in this release. The Company believes that these non-GAAP financial measures not only provide its management with comparable financial data for internal financial analysis but also provide meaningful supplemental information to investors. Specifically, these non-GAAP financial measures allow investors to better understand the performance of the Company's business and facilitate a more meaningful comparison of its diluted earnings per share and actual results on a period-over-period basis. The Company has provided this information as a means to evaluate the results of its ongoing operations. Other companies in the Company's industry may calculate these items differently than it does. Each of these measures is not a measure of performance under GAAP and should not be considered as a substitute for the most directly comparable financial measures prepared in accordance with GAAP. Non-GAAP financial measures have limitations as analytical tools, and investors should not consider them in isolation or as a substitute for analysis of the Company's results as reported under GAAP.

Forward-Looking Statements

This press release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 as contained in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forwardlooking statements in this release include our outlook for the third quarter of fiscal year 2015 and for the full fiscal year 2015. Investors can identify these statements by the fact that they use words such as "continue," "expect," "may," "opportunity" "plan," "future" "ahead" and similar terms and phrases. The Company cannot assure investors that future developments affecting the Company will be those that it has anticipated. Actual results may differ materially from these expectations due to risks relating to the Company's retail-based business model, general economic conditions and consumer spending, the Company's concentration of stores in the Western United States, competition in the outdoor activities and sporting goods market, changes in consumer demands, the company's expansion into new markets and planned growth, current and future government regulations, risks related to the Company's continued retention of its key management, the Company's distribution center, quality or safety concerns about the Company's merchandise, events that may affect the Company's vendors, trade restrictions, and other factors that are set forth in the Company's filings with the SEC, including under the caption "Risk Factors" in our Form 10-K for the fiscal year ended January 31, 2015 filed with the SEC on April 2, 2015 and our other public filings made with the SEC and available at www.sec.gov. If one or more of these risks or uncertainties materialize, or if any of the Company's assumptions prove incorrect, the Company's actual results may vary in material respects from those projected in these forward-looking statements. Any forward-looking statement made by the Company in this release speaks only as of the date on which the Company makes it. Factors or events that could cause the Company's actual results to differ may emerge from time to time, and it is not possible for the Company to predict all of them. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by any applicable securities laws.

- (1) As a result of the completion of our initial public offering and pursuant to the terms of the employment agreements with our executive officers, we paid \$2.2 million in bonuses to our executive officers.
- (2) On March 9, 2015, a jury awarded \$11.9 million against the defendants in a litigation matter. Based on this decision, we accrued \$4.0 million in our results for the fiscal year ended January 31, 2015 related to this matter. We strongly disagreed with the jury's verdict and filed post-trial motions seeking to have the verdict set aside. On July 30, 2015, the court granted our renewed motion for judgment as a matter of law and conditionally granted our motion for a new trial. Based on the overall favorable outcome of the court's decision, we determined that the likelihood of loss in the case is not probable, and, as such, we reversed the previous accrual of \$4.0 million in our results for the 13 weeks and 26 weeks ended August 1, 2015.
- (3) Assumes our initial public offering was effective as of February 3, 2013, the first day of our fiscal year 2013.
- (4) Stock-based compensation expense represents non-cash expenses related to equity instruments granted to employees under our 2013 Performance Incentive Plan.
- (5) Pre-opening expenses include expenses incurred in the preparation and opening of a new store location, such as payroll, travel and supplies, but do not include the cost of the initial inventory or capital expenditures required to open a location.
